Flixsy

Software Installation Guide for Amazon FireTV Stick

Introduction

Flixsy is the world's largest and most reliable IPTV/OTT streaming platform, delivering nearly 3000 TB in streaming content per month to thousands of customers around the globe.

A simple user interface and an extensive collection of HD channels offer us the most satisfactory IPTV service in the USA, Canada, Latin America, and the UK. We broadcast thousands of live channels to stream premium HD content. Our existing customers praise the quality of the content we deliver through our IPTV service.

Flixsy lets you watch TV anywhere. We all know how annoying it could be when you want to download an app, software, or program and you can't seem to find it on your Amazon firestick options. Hence, we made this guide to assist you in downloading and navigating through Flixsy for Amazon Fire TV Stick with ease.
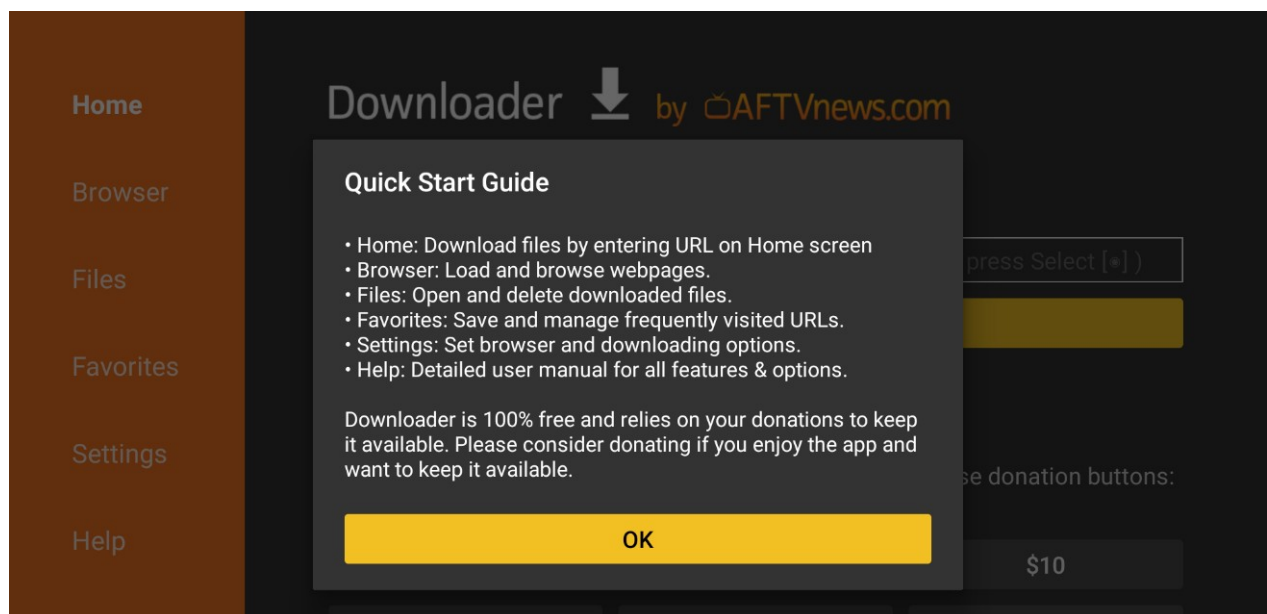

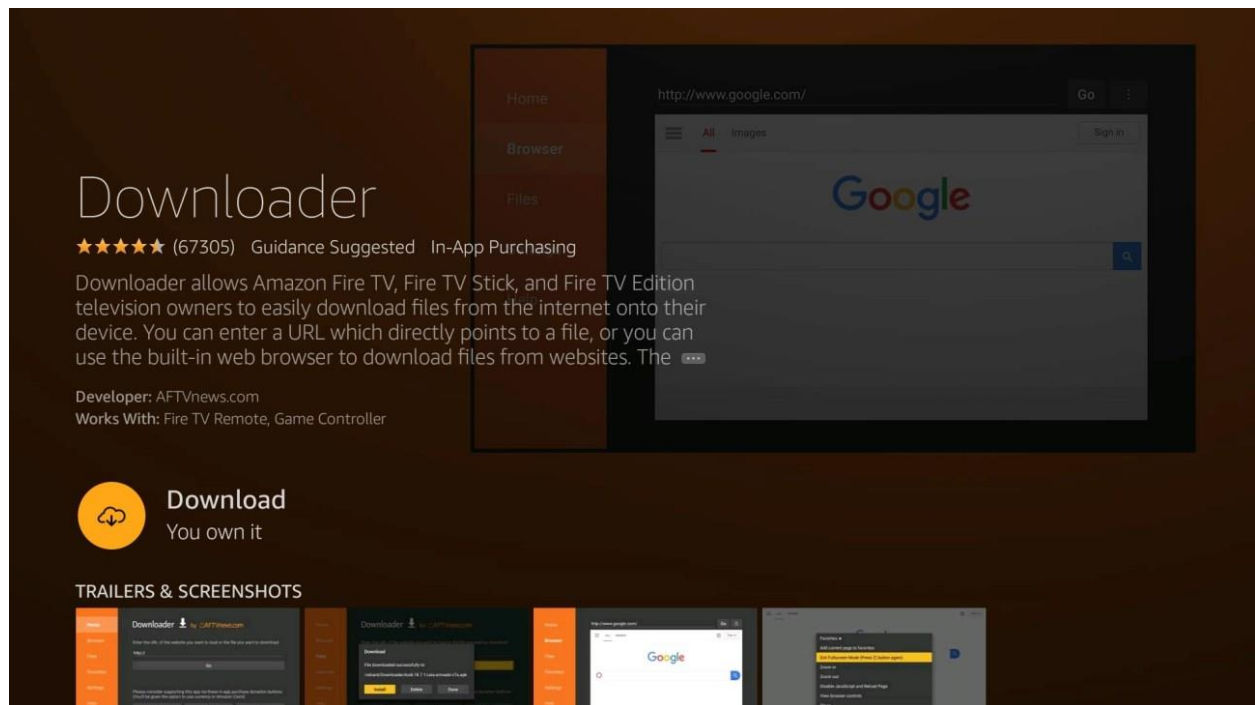

Downloading

Installing apps that are not available in the Amazon Appstore, also known as sideloading apps, on Amazon Fire TV devices varies slightly depending on the model you are using. This guide covers how to sideload the Flixsy APK on all models, including Fire TV boxes, Firestick, Fire TV Cubes, Fire TV Edition televisions, the new 2020 Fire TV Stick 3, and Fire TV Stick Lite.

Here are quick and easy steps to Download and Install Flixsy on your Amazon Fire TV stick.

STEP 1: Install Downloader App

Search for and install the Downloader App from the Amazon Appstore. Once the app is installed, please do **NOT** open it yet.
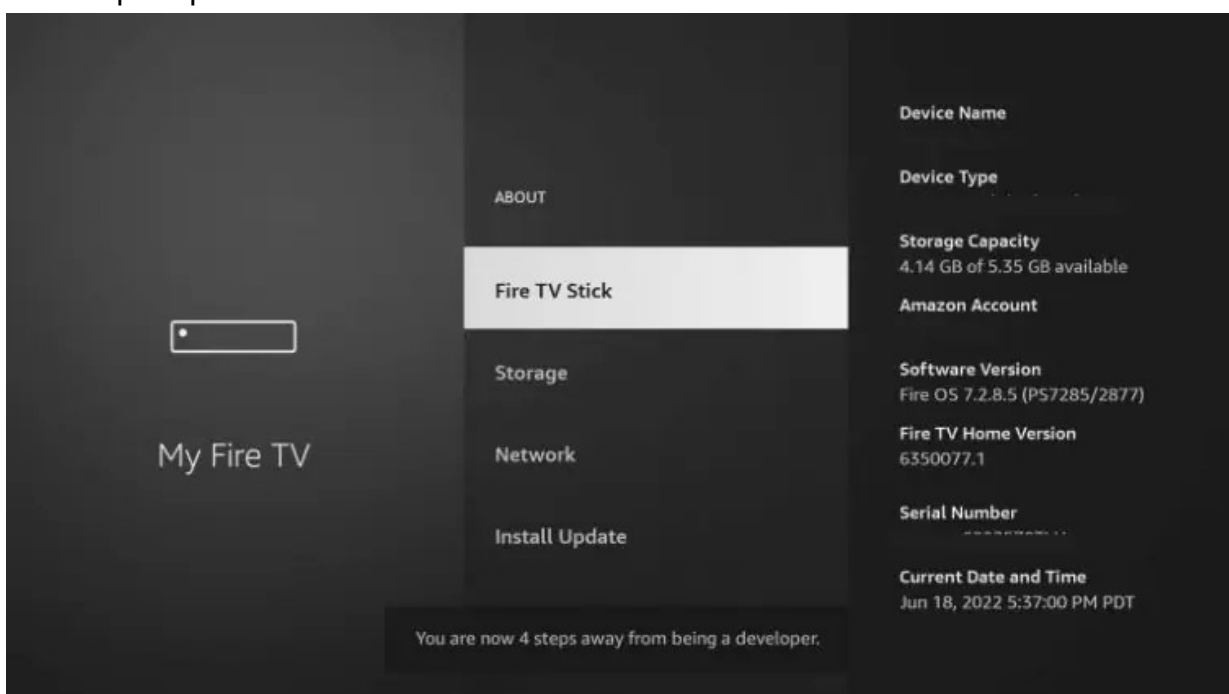

STEP 2: Enable Developer Options
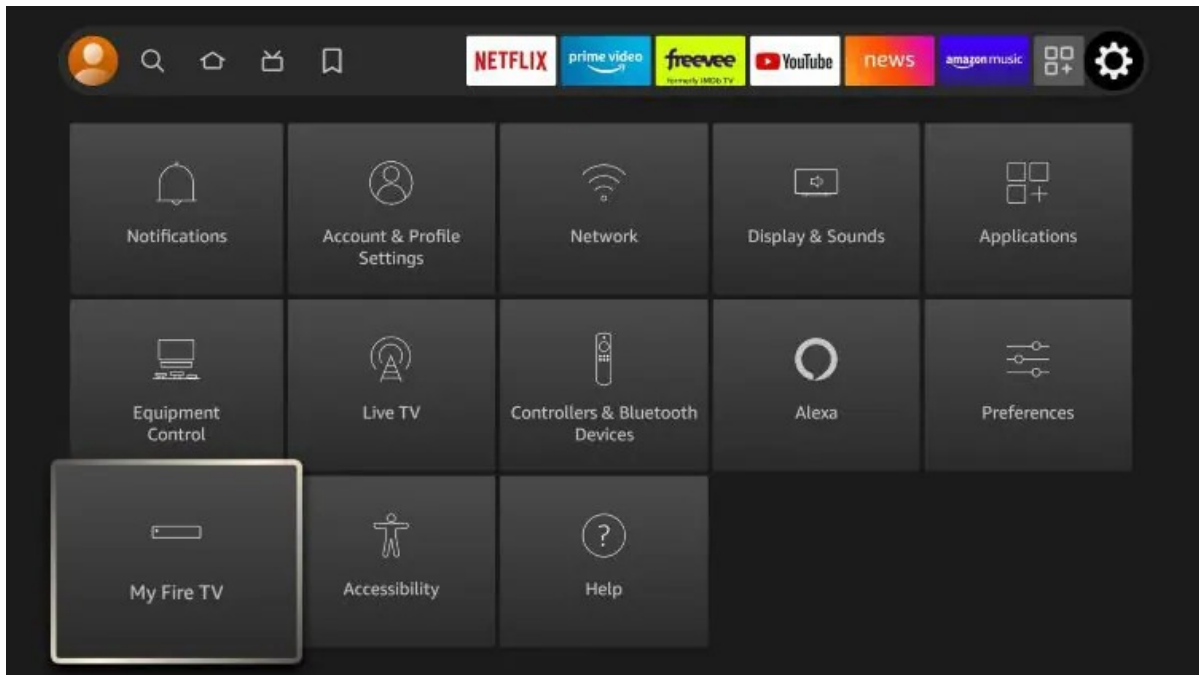

1. Hover over Settings icon and click **My Fire TV**

2. Clck **About**

3. Hover over **Fire TV Stick** and click OK Button on your remote **7 times** to become enable Developer options

STEP 2: Enable Developer Options

1. Hover over Settings icon and click **My Fire TV**

   2. Clck **About**

   3. Hover over **Fire TV Stick** and click OK Button on your remote **7 times** to become enable Developer options. A message will appear at the bottom of your screen.
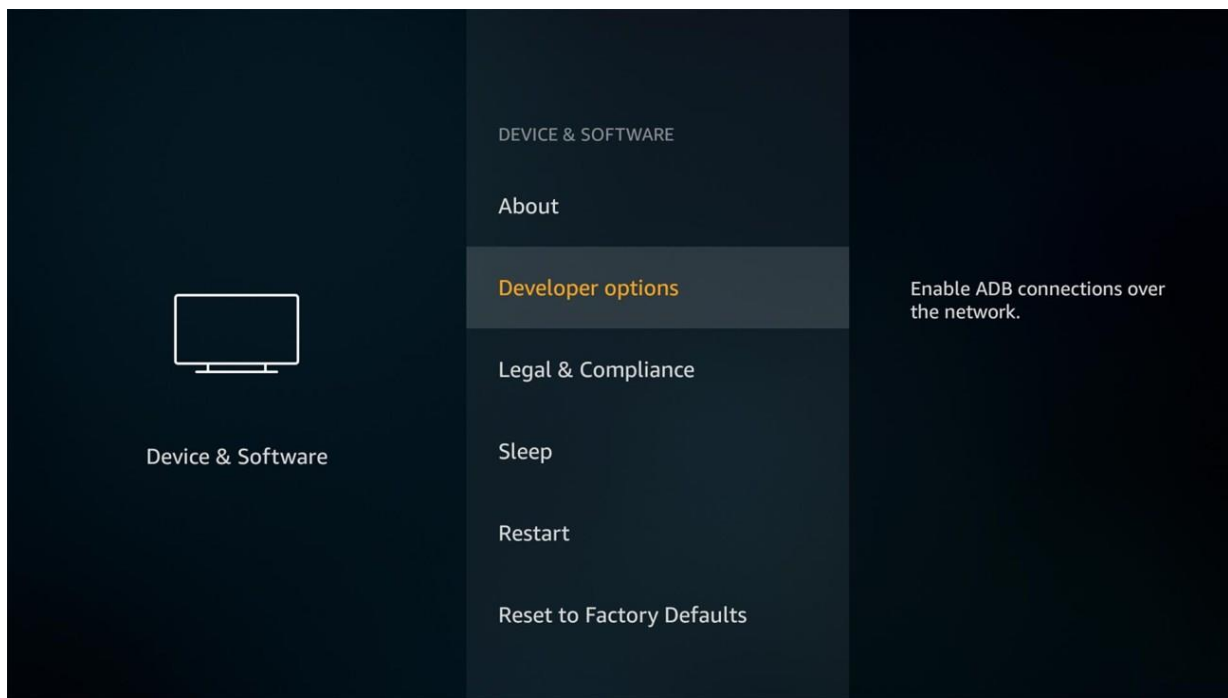

STEP 3: Go to Developer Options in Settings. Now that Downloader is installed, and you haven't launched it yet, you need to change a setting on your device.

If you have any Fire TV box, Fire TV Stick, Fire TV Stick 4K, or Fire TV Cube, navigate to *Settings > My Fire TV > Developer Options*
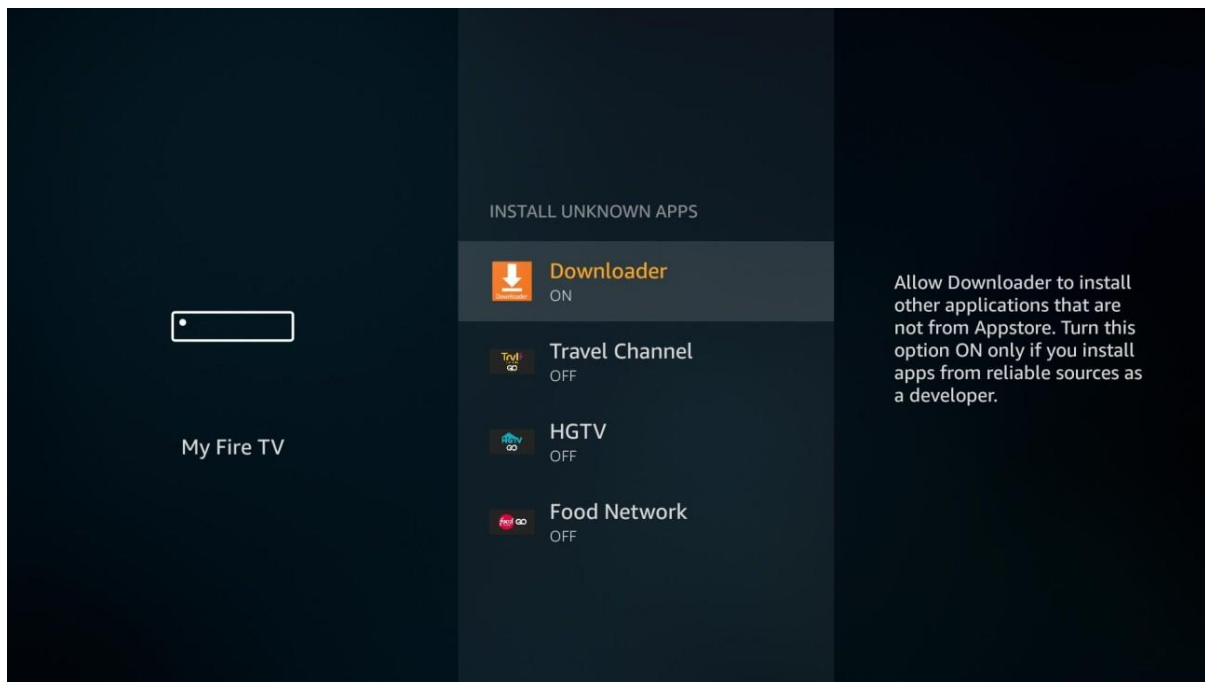

If you have any Fire TV Edition television, navigate to *Settings > Device & Software > Developer Options*
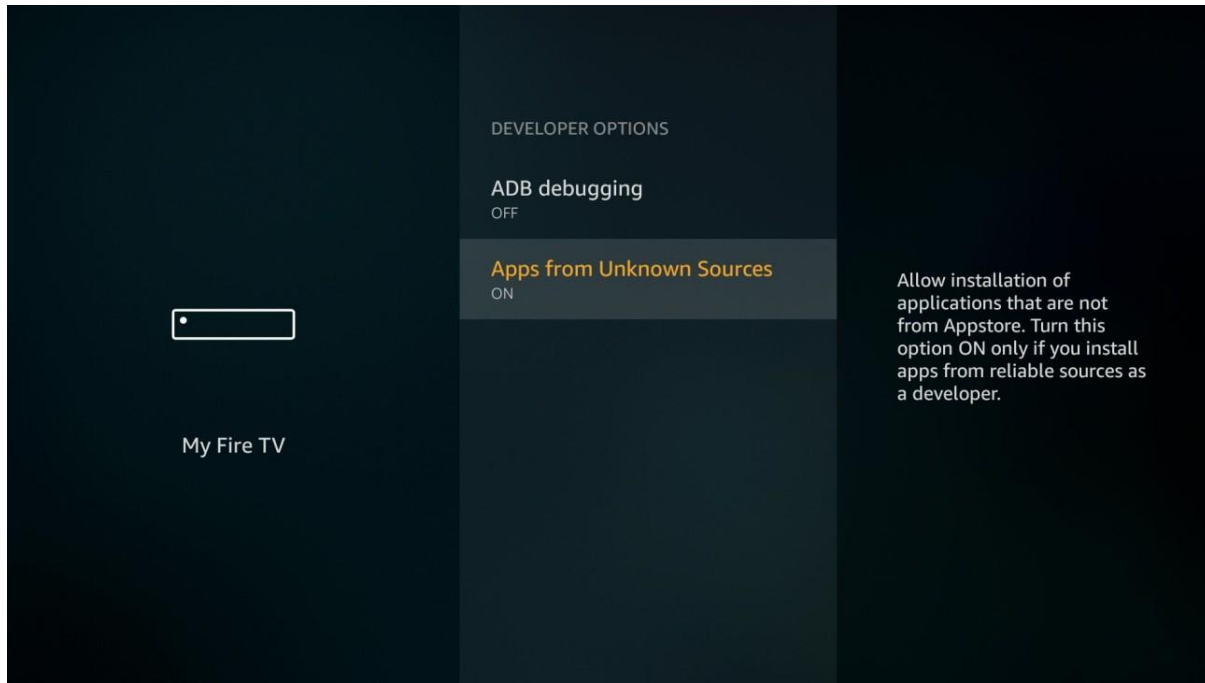

STEP 4: Enable Apps from Unknown Sources

If you have a Fire TV Cube 2nd Gen, Fire TV Stick 3rd Gen, Fire TV Stick Lite, Fire TV Edition televisions by Grundig & JVC, or 2020 Fire TV Edition televisions by Toshiba & Insignia, select the *'Install unknown apps* option,' scroll to *Downloader*, and change its setting to "ON".
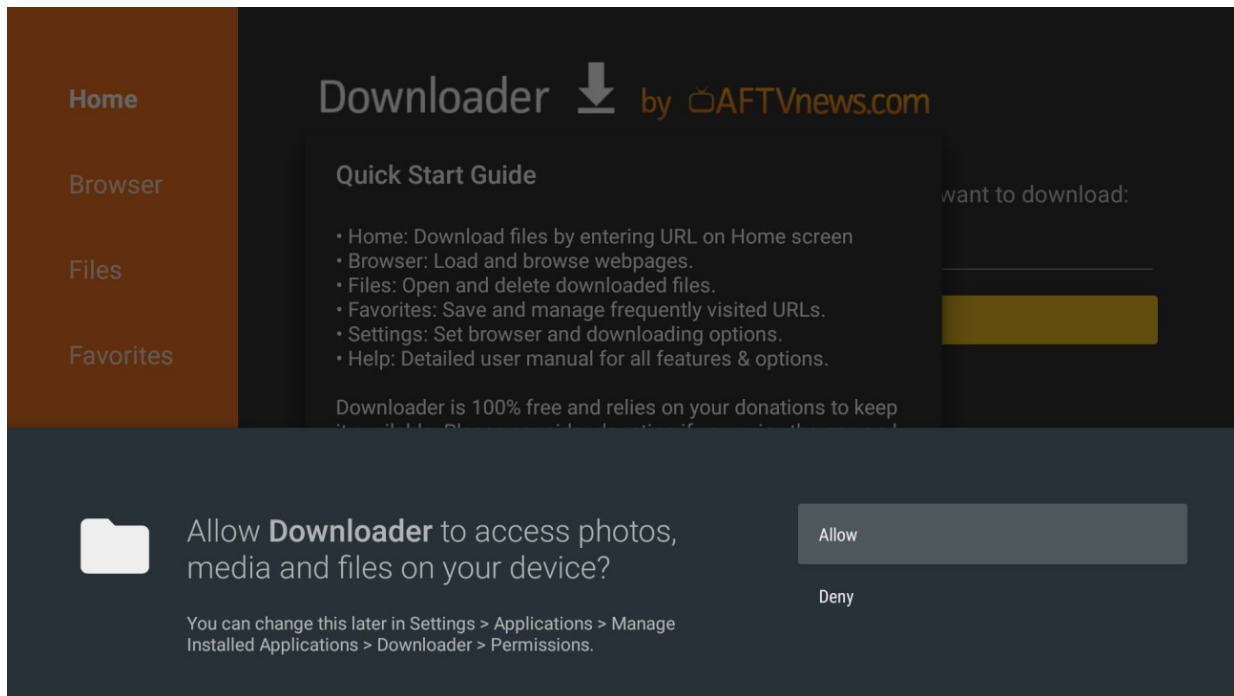

If you have a Fire OS 5 or Fire OS 6 device, including all other devices, select *Apps from Unknown Sources* to change the setting to *ON*.
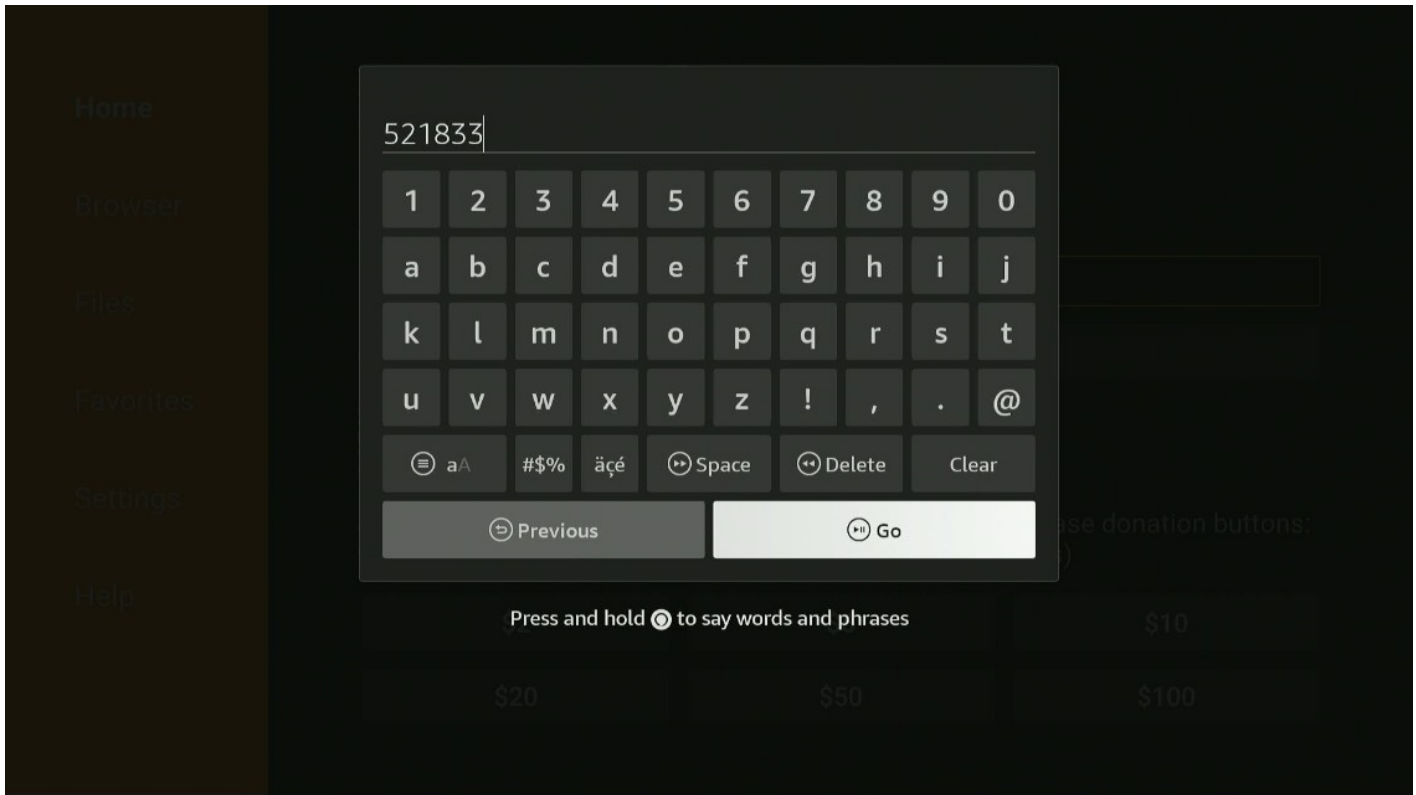

STEP 5: Open Downloader and Grant Storage Permission

Now, go to your list of apps on the Fire TV Home screen and open the Downloader app. If you have a Fire OS 6 or Fire OS 7 device, you will be asked to allow Downloader access to files on your device as soon as you launch the app. Select *Allow*.
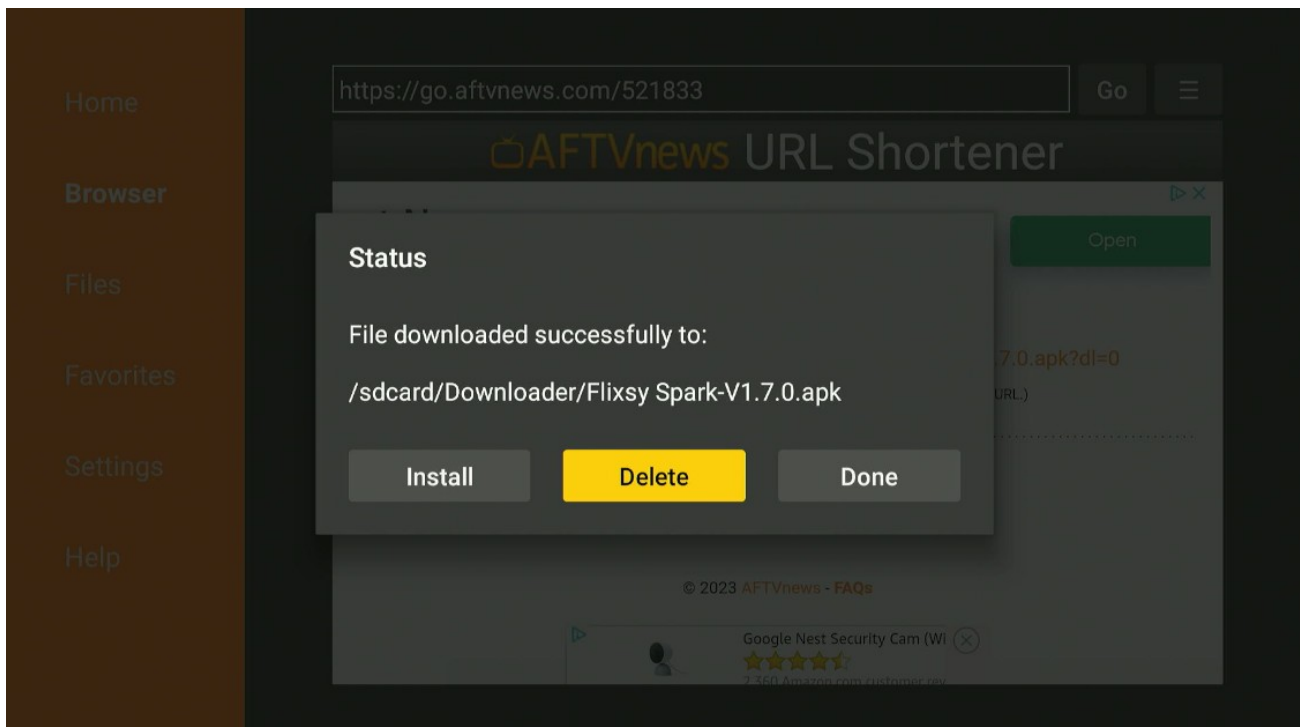

STEP 6: Enter URL or Downloader Code

The Downloader Code for Flixsy Spark App is **521833**
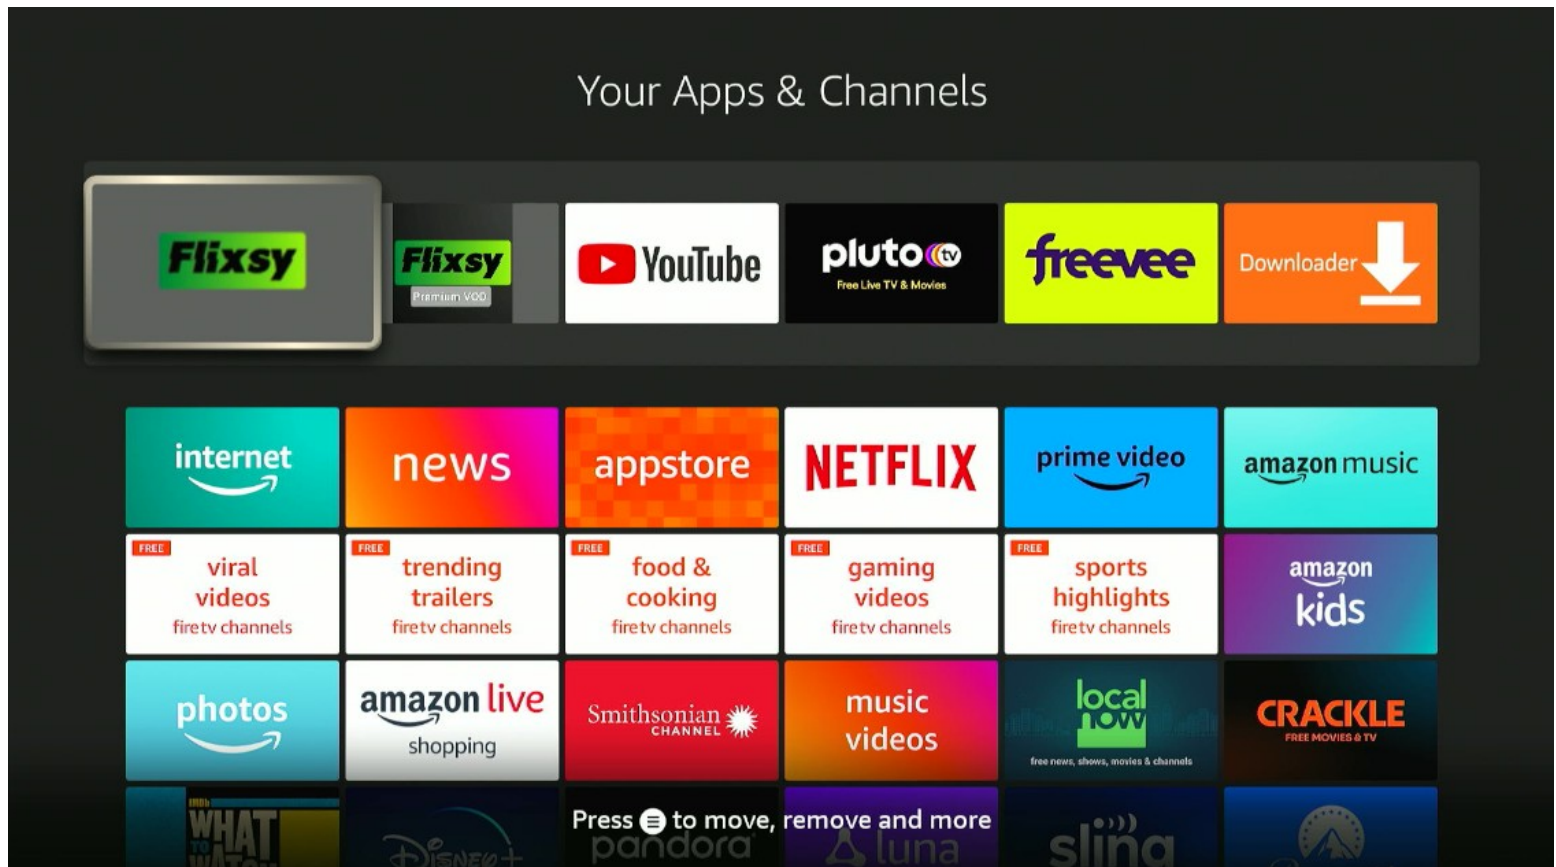

STEP 7: Install Flixsy Spark APK

After the APK file downloads, you will be asked to install the app. Press Down and Right on the remote a few times until the *Install* button is highlighted. Press the center Select button on the remote to begin installing the app and select *Done* when it's finished Installing. You may choose to Delete the apk after install to space storage space.
